PERSONAL STATEMENT

Results-driven front-end developer with over 3 years of experience building highly responsive and dynamic user interfaces using **JavaScript (ES6+), React.js, HTML5, CSS3, and Bootstrap**. Skilled in **UI/UX design** principles, including accessibility, responsive layouts, and interactive prototypes using tools like **Figma**. Experienced in leveraging cloud platforms like **Microsoft Azure** and **Google Cloud, AWS** to deploy scalable front-end solutions, with expertise in **Azure Web Apps, Azure DevOps, and Firebase**.

Proficient in integrating front-end code with RESTful APIs, implementing state management using **Redux**, and optimizing application performance through lazy loading and code splitting. Strong advocate for modern development practices, including **test-driven development (TDD)**, **version control with Git/GitHub**, and CI/CD pipelines.

Key Achievements:

- Improved page load times by 40% through performance optimizations and React code enhancements.
- Delivered a complex e-commerce platform with real-time WebSocket updates, hosted on **Azure Web Apps**, resulting in a 25% boost in customer engagement.
- Designed and implemented reusable React components, reducing development effort across teams by 20%.
- Recognized as **Employee of the Month** for leading a critical redesign project that increased user satisfaction scores by 35%.

EDUCATION

Ajou University
2024 - current

Master of Business Administration, concentration on Information Technology

Jizzakh State Pedagogical University
2013-2017

Bachelor's degree in mathematics and computer science

WORK EXPERIENCE

Front End Developer

Napa Automotive, Tashkent   June 2019 – Sep 2024

- Developed interactive, responsive web applications using **React.js**, integrating dynamic data for user interfaces.
- Hosted and optimized React-based applications on **Azure Web Apps**, ensuring smooth and scalable deployments.
- Integrated **RESTful APIs** from **Google Cloud**, enabling real-time data fetching and dynamic content updates.
- Automated deployment pipelines using **Azure DevOps** and **GitHub Actions**, reducing deployment time by 30%.
- Designed responsive layouts using **HTML5**, **CSS3**, and **Bootstrap**, ensuring compatibility across devices and browsers.
- Utilized **Figma** to create wireframes and prototypes for new features, improving design workflows.
- Set up **Azure Content Delivery Networks (CDNs)** to enhance application speed and reduce latency.
- Created form validations and interactive elements using **React Hooks** and modern JavaScript features.

Full Stack Developer

Fido Bizness, Tashkent   Mar 2018–May 2019

- Developed reusable UI components using **React.js** and integrated them with **Laravel**-based back-end APIs, accelerating project timelines by 20%.
- Designed and implemented RESTful APIs in **PHP (Laravel)** to facilitate secure data exchange between the front-end and back-end systems.
- Designed and implemented dynamic layouts using **CSS Grid** and **Flexbox**, achieving pixel-perfect designs.
- Managed database schemas and performed migrations in **MySQL** and **MS SQL Server**, ensuring data integrity and performance.

- Implemented real-time notifications and user activity tracking using **Firebase Realtime Database** and Laravel event broadcasting.

Front-End Developer Intern
Artel, Tashkent   Sep 2017–Feb 2018
- Assisted in developing responsive web pages using **HTML5**, **CSS3**, and **JavaScript**, ensuring compatibility across various browsers and devices.
- Implemented interactive features using **React.js**, including dynamic forms and dropdown menus, to enhance user engagement.
- Gained hands-on experience integrating front-end applications with **RESTful APIs** for real-time data updates.
- Conducted debugging sessions to identify and fix issues in UI components, ensuring seamless performance.
- Optimized website performance by implementing **lazy loading**, reducing initial page load times by 20%.
- Learned and applied **version control with Git and GitHub**, maintaining organized code repositories for team collaboration.
- Participated in daily stand-up meetings and provided updates on assigned tasks, improving workflow transparency.
- Worked with **Figma** to review design assets and ensure proper implementation of UI/UX guidelines.

PROJECTS

- **E-Commerce Platform (Full-stack)**
- Built a scalable e-commerce platform with a React.js front end and a Laravel-based back end, enabling real-time inventory updates and user interactions.
- Designed and implemented RESTful APIs for secure data transfer between the client-side and the server-side systems.

LANGUAGUES & TECHNOLOGIES

JavaScript, HTML, CSS, PHP, MySQL, Git, React, Laravel

CERTIFICATES

Meta Front-End Developer Professional Certificate
